

AUDIT REPORT

ISO 9001:2015

Stage 2 audit for

PT SAFE SHIPPING SERVICES

Address : Ruko Enggano Lama Blok B 12 Jl Raya Enggano Nomor 15,
Desa/Kelurahan Tanjung Priok, Kec. Tanjung Priok, Kota Adm.
Jakarta Utara, Provinsi DKI Jakarta, Kode Pos: 14310

Audit Date : May 13, 2026

COMMERCIAL - IN – CONFIDENCE

*The contents of this report must not be disclosed to a third party
without the agreement of the QACS INT-CERT GLOBAL' Client*

BACKGROUND INFORMATION

The purpose of this audit report is to summarise the degree of compliance with relevant criteria, as defined on this page, based on the evidence obtained during the audit of your organization. This audit report considers your organization's policies, objectives, and continual improvement processes. Comments may include how suitable the objectives selected by your organization appear to be regarding maintaining customer satisfaction levels and providing other benefits concerning policy and other external and internal needs. We may also comment regarding the measurable progress you have made in reaching these targets for improvement.

QACS INT-CERT GLOBAL audits are carried out within the requirements of QACS INT-CERT GLOBAL procedures that also reflect the requirements and guidance provided in the international standards relating to audit practice such as ISO/IEC 17021, ISO 19011 and other normative criteria. Auditing is based on a sampling process of the available information. QACS INT-CERT GLOBAL Auditors are assigned to audits according to industry, standard or technical competencies appropriate to the organization being audited. Details of such experience and competency are maintained in our records.

In addition to the information contained in this audit report, QACS INT-CERT GLOBAL maintains files for each client. These files contain details of organization size and personnel as well as evidence collected during preliminary and subsequent audit activities (Documentation Review and Scope) relevant to the application for initial and continuing certification of your organization.

Please take care to advise us of any change that may affect the application/certification or may assist us to keep your contact information up to date, as required by QACS INT-CERT GLOBAL Terms and Conditions. This report has been prepared by QACS INT-CERT GLOBAL concerning a Client's application for assessment. The purpose of the report is to comment upon evidence of the Client's compliance with the standards or other criteria specified. The content of this report applies only to matters, which were evident to QACS INT-CERT GLOBAL at the time of the audit within the audit scope. QACS INT-CERT GLOBAL does not warrant or otherwise comment upon the suitability of the contents of the report or the certificate for any particular purpose or use. QACS INT-CERT GLOBAL accepts no liability whatsoever for consequences to, or actions taken by, third parties as a result of or in reliance upon information contained in this report or certificate.

Please note that this report is subject to independent review and approval. Should changes to the outcomes of this report be necessary as a result of the review, a revised report will be issued and will supersede this report.

HEAD OFFICE ADDRESS: Ruko Enggano Lama Blok B 12 Jl Raya Enggano Nomor 15, Desa/Kelurahan Tanjung Priok, Kec. Tanjung Priok, Kota Adm. Jakarta Utara, Provinsi DKI Jakarta, Kode Pos: 14310		
SCOPE OF CERTIFICATION: Provision Of Freight Forwarding And Logistics Support Services, Including Cargo Handling, Storage, Transportation Arrangement, And Related Activities		
 Evan Prasetya		
Signed by Lead Auditor		Signed by Company Representative

DEFINITIONS AND ACTION REQUIRED CONCERNING AUDIT FINDINGS

Major non-conformance

Based on objective evidence, the absence of, or significant failure to implement and/ or maintain conformance to requirements of the applicable standard. Such issues may raise significant doubt as to the capability of the management systems to achieve its intended outputs (i.e. the absence of or failure to implement a complete Management Systems clause of the standard); or a situation which would be based on available objective evidence, raise significant doubt as to the capability of the Management Systems to achieve the stated policy and objectives of the customer.

NOTE: The “applicable standard” is the standard which QACS INT-CERT GLOBAL are issuing certification against, and maybe a Product Standard, a management systems standard, a food safety standard or another set of documented criteria.

Action required: This category of findings requires QACS INT-CERT GLOBAL to issue a formal NCR; to receive and approve client’s proposed correction and corrective action plans; formally verify the effective implementation of planned activities. Correction and corrective action plan should be submitted to QACS INT-CERT GLOBAL before the commencement of follow-up activities as required. Follow-up action by QACS INT-CERT GLOBAL must ‘close out’ the NCR or reduce it to a lesser category within 90 days or as specified in NCR form.

If significant risk issues (e.g. safety, environmental, food safety, product legality/ Information Security, etc.) are detected during an audit these shall be reported immediately to the client and more immediate or instant correction shall be requested. If this is not agreed and cannot be resolved to the satisfaction of QACS INT-CERT GLOBAL, the immediate suspension shall be recommended.

In the case of an already certified client, failure to close out NCR within the time limits means that suspension proceedings may be instituted by QACS INT-CERT GLOBAL.

Follow-up activities incur additional charges.

Minor non-conformance

Represents either a management systems weakness or a minor issue that could lead to a major non-conformance if not addressed. Each minor NC should be considered for potential improvement and to further investigate any systems weaknesses for possible inclusion in the corrective action program.

Action required: This category of findings requires QACS INT-CERT GLOBAL to issue a formal NCR; to receive and approve client’s proposed correction and corrective action plans, and formally verify the effective implementation of planned activities at the next scheduled audit or within specified time frames.

Opportunity for Improvement

A documented statement, which may identify areas for improvement, however, shall not make a specific recommendation(s).

Action required: Client may develop and implement solutions to add value to operations and management systems. QACS INT-CERT GLOBAL is not required to follow-up on this category of audit finding.

EXECUTIVE OVERVIEW

The objectives of this audit were to determine the implementation of your organization's management systems; the capability and effectiveness of the management systems in ensuring continual compliance with customer, statutory and regulatory requirements and in meeting its specified objectives; and conformity of the management systems to the stated criteria.

The audit showed that the management systems is generally maintained following the requirements of the standard. The previous area of concerns was verified closed and verified its effectiveness by using internal corrective action program. Several positive finding was observed and implemented well, such as Top Management are demonstrated commitment to the Quality Management Systems (*to be abbreviated as QMS*) by assigned ISO team and provided dedicated QA/QC personnel to ensure the implementation and effectiveness of the quality management systems implemented well to monitor and control business operation. Some opportunity for improvements were identified that will require review and consideration by top management, to ensure appropriate preventive actions are implemented before the next audit.

This audit was a stand-alone audit of the systems(s) listed in the "Background Information" section of this report.

The audit has determined that your management systems can ensure the organization meets its identified applicable statutory, regulatory and contractual requirements relevant to the scope of certification.

The audit has determined that your management systems is effective in ensuring that the organization can reasonably expect to achieve its defined objectives.

The objectives of this audit have been fulfilled.

RECOMMENDATION

The recommendation from this audit is that the organization can given the certificate.

Audit recommendations are always subject to ratification by the QACS INT-CERT GLOBAL certification authority.

This report was prepared by:

Changes To The Audit Plan And The Reasons For The Change

There was no change from the audit plan. The audit was conducted as a confirmed audit plan with the client.

Significant Issues Impacting On The Audit Programme

There was no change to the audit program.

Appropriateness Of The Certification Scope

The organization's certification scope was observed and verified. It was clearly described in the Quality manual and verified in the service provision.

Review Of Any Changes Including Documentation

There has been no significant change to the organization's scope and structure since the last audit. The organization has established the Quality Management Systems in manual PTSSS-MR-QM-01-A and several relevant procedures. Organization structure established in the Director decree. The Quality management system ISO 9001:2015 has been implemented since January 2026.

The Action Was Taken On Previous Audit Findings

All of the areas of concern has been followed up with using organization internal Corrective Action process. Internal CAR has been shown and verified the effectiveness of the action taken.

Use Of The Certification Documents And Marks

There was no evidence of the use of the Standards Mark logo or claims of certification. The organization have promoted their certification achievement by using the QACS INT-CERT GLOBAL certification standards mark, through organization's company profile brochure, cover letter, document forms, invoice, etc.

Context Of The Organization

The organization has determined the external and internal issues that may affect its ability to achieve intended results of the Quality Management Systems on PTSSS-MR-QM-01-A . Information about external and internal issues is regularly reviewed.

Internal

- *Global financial conditions in Indonesia are declining,*
- *The weakening of the Indonesia's currency against the Dollar,*
- *The role overload among staffs.*

External

- *Competent employees because they are supported by an appropriate educational background and experienced in their fields for a relatively long time,*
- *Information systems that develops especially in sales,*
- *The need for more efficient technology,*
- *Company compliance with government regulations, whether general or environmental law.*

Interested Parties

The organization has identified need and expectation of interested parties relevant to the Quality Management Systems. The requirements of these parties have also been defined and documented on WIF1-018.

The following examples of interested parties' requirements were viewed:

- *Employee,*
- *Top Management,*
- *Customer,*
- *Government,*

- *External Provider,*
- *Shareholder.*

Scope Of The Quality Management Systems

The organization has determined the boundaries and applicability of the Quality Management Systems to determine its scope. Consideration of interested parties along with internal and external issues and the products/services provided are clearly evident.

The following evidence was reviewed:

The organization has determined the scope of certification as defined in the Quality manual PTSSS-MR-QM-01-A : "Provision Of Freight Forwarding And Logistics Support Services, Including Cargo Handling, Storage, Transportation Arrangement, And Related Activities."

Leadership And Commitment

The organization has demonstrated that Top Management provides leadership and commitment concerning the Quality Management Systems.

The primary activities conducted by top management include:

The top management has shown and demonstrated leadership among the organization by;

- Determined and signed the Quality policy
- Provide the relevant resources to support the business process
- Measure and monitor the process performance with operational meeting, internal audit and management review

All of the described above has been defined in the Quality Manual PTSSS-MR-QM-01-A .

Customer Focus

The organization's top management has demonstrated commitment to ensuring customer satisfaction is maintained. Customer and applicable statutory and regulatory requirements have been determined and are consistently implemented. Risks and opportunities that could affect the delivery of products and services have been identified and are regularly reviewed.

The following evidence was reviewed:

The commitment to ensuring customer satisfaction has demonstrated by the organization, where the organization has a customer satisfaction survey and feedback from customer complaint on PTSSS-PUR-QP-03-A. The customer satisfaction perception was monitored as monitoring of operational performance using survey form.

Quality Policy

A policy that is appropriate to the organization's purpose and context has been established, implemented and maintained by top management. The policy is available as documented information to all interested parties.

The following evidence was reviewed:

The policy has been determined and established in the Quality Policy statement and signed by the Director. The policy has been communicated within and available for the organization and other stakeholders. All of the described above has been defined in the Quality Manual PTSSS-MR-QM-01-A .

Organizational Roles, Responsibilities And Authorities

There is consistent evidence that responsibilities and authorities for relevant roles are assigned and communicated within the organization to ensure that the Quality Management Systems conforms to the requirements of the Standard and meets the intended outputs for the organization. There is clear evidence to demonstrate that where Quality Management Systems changes are required, planning and actions are

implemented to ensure that compliance with activities is maintained.

The following examples were reviewed:

Organization role and responsibility has been determined in the management structure on Quality Manual PTSSS-MR-QM-01-A. Lamp.1, on Feb 19, 2025 and signed by top management.

MANAGEMENT SYSTEMS PLANNING

Risks And Opportunities

The organization has determined the risks and opportunities that may influence the Quality Management Systems intended results. Actions to reduce/ eliminate undesired effects or promote improvement have been planned, implemented and evaluated.

The following examples were reviewed:

The risk and opportunity established in WIF1-017. Plan to address the risk and opportunity has been determined for significant risk and opportunity.

Risks ;

- Limited number of human resources,
- Operational cost,
- Error in the production process,
- Complaint from customer,
- Many competitors with similar business,

Opportunity

- Opportunity on 3S (Safety, Security and Satisfaction),
- Customer trust,
- Down time maintenance achieved.

Objectives

There is consistent evidence that the Quality Management Systems is being monitored via relevant Quality Objectives.

The following documented information relating to Quality Objectives has been reviewed:

The quality objective was determined;

- Delivery on time min. 98%,
- Customer complaint max. 1

Un-achieved objectives have been evaluated monthly to determine corrective action. The effectiveness of the action taken has been reviewed in the Operation meeting.

Planning Of Change

The organization has implemented an effective process for the systematic planning and management of identified changes to the Quality Management Systems.

Examples of planned changes to the Quality Management Systems include:

The possible changes needed in implementation of the ISO 9001:2015 was determined in document PTSSS-QA-QP-04-A. Including what needs to be done by the organization.

Resources

The organization has considered and identified the internal and external resources required for the effective implementation of the Quality Management Systems.

Examples of internal and external resources and their purpose of use include:

The organization has determined the resource needed, such as the agreement between vendor, competent personnel, and supporting resources. The following evidence was reviewed:

The organization has determined the human resource needed on PTSSS-HRD-QP-01-A. The organization has determined and monitoring the utility needed on PTSSS-MT-CS-PM-01-A, Standard Procedures for Inventory maintenance PTSSS-MT-QP-01-A.

Organizational Knowledge

The organization has determined and made available the knowledge necessary for the implementation of processes required for the delivery of products and/ or services. The company has identified processes for acquiring additional knowledge as required and already keeps training-related materials.

Competence And Awareness

A review of the competency and awareness of the people doing work under the organization's control has identified.

The following evidence was reviewed:

Human Resources Development – Recruitment, Performance Evaluation, Competence, Awareness and training

Human resources management was handled by HRGA Departement staff located in Workshop. The function was responsible for recruitment and training. Organization chart has determined by the organization. Job description and requirement were determined by the organization based on organization development need in business growth and organization structure.

The recruitment process was determined by the organization on PTSSS-HRD-QP-01-A. The recruitment process was conducted based on requests from other department used requesting a form. Recruitment process stage was conducted such as administration selection, psychology test, and interview.

The organization has determined the skills needed to support the management systems intended result on matrix skill WIF5-009, and have determined the annual schedule and implementation of the training on PTSSS-HRD-QP-02-A, and evaluated the training effectiveness on PTSSS-HRD-TRA-01-A.

The organization has a staff with OSH Boiler Operator 1st Grade License from Directorate General of Labour Inspection Development and Occupational Safety and Health of Indonesia, valid until January 2027.

The organization has a staff with OSH Forklift Grade 2 License from Directorate General of Labour Inspection Development and Occupational Safety and Health of Indonesia, valid until July 2026.

The personnel competency needed on R&D, Production, Quality Control, Internal audit, Maintenance has been fulfilled.

Training needs has been identified and evaluated periodically.

Communication

Internal and external communication processes relevant to the Quality Management Systems has been determined through operational meeting or other meeting.

The following examples were reviewed:

The facility determining internal and external communication on bulletin displays, regular meeting and communication planning form.

Monitoring And Measurement Of Resources

The organization has determined and made available the resources needed to ensure that monitoring and

measuring activities provide valid and reliable results and are fit for purpose.

Example of evidence checked and observations made include:

Operation monitoring and review were used to monitor and evaluate operating performance. List of measurement instrument determined and calibration scheduled on PTSSS-QA-CS-04-A. The calibration process is carried out by a local accredited third party calibration body (PT Kawan Lama Sejahtera and PT Sentral Teknologi Manajemen).

Documented Information

The organization's Quality Management Systems documented information was reviewed and found to be in conformance with the requirements of the standard.

The following evidence was reviewed:

The documented information control has been established in the Documented Information Procedure PTSSS-MR-QP-05-A. The master list document PTSSS-MR-ML-01-A was evident, consist of revision status, document owner, and distribution list.

ORGANIZATIONAL OPERATION AND SERVICE DELIVERY

Customer Requirements And Planning Of Products/Services

The organization has implemented processes for communicating with its clients and determining and reviewing the requirements for its products and services.

The following evidence was reviewed:

Request for quotation with Order dated 03-10-2025 from PT Dasa Windu Agung, provision of Nonwoven Fabric for Headlining (item No. MCVSNWV500X). Detailed specifications were available and verified during site tour and document review.

Design and Development of Products or Services

The organization undertakes the design and development of the following products/services:

It was verified that the requirement 8.3 Design and development is applicable by the organization in the product and operation department where the planning and designing program is created and developed to fulfill customer need and for organization business sustainability.

The following evidence was reviewed:

Design and development stage are established in the procedure PTSSS-RD-QP-01-A. Products provided by the organization consist of Product Part Approval Process (PPAP) report. The development program has function to ensuring the preparation of appropriate security system plans for prospective customers.

Control Of Externally Provided Processes, Products And Services

The organisation's has implemented a process for controlling externally provided products and services in vendor selection, evaluation, re-evaluation supplier with document number PTSSS-PUR-QP-02-A.

The following evidence was reviewed:

The external provider was selected based on quality, price, delivery, term of payment and evaluated on PTSSS-PUR-QP-04-A document per annually.

Business Processes

This audit included a review of the processes needed for the Quality Management Systems operation and control of the audited processes are described below:

The business process was established in the Business Planning PTSSS-MR-QP-01-A. Relevant processes were audited consist of MR, Marketing, HR-GA, Purchasing-PPIC-Production, Quality Control, Maintenance, and customer feedback evaluation were used for company business performance evaluation.
